

PapayaBot Cliff Notes [Android]

Go into your PapayaBot chat.

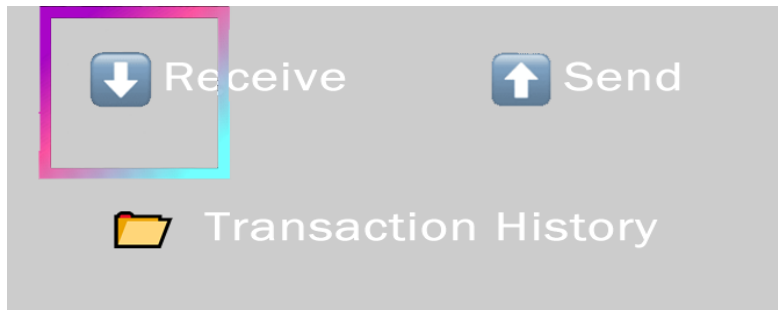

Tap Menu or this icon

Select /wallet or 💰 Wallet

Select Receive

Select XLM or tap — for a full list of coins or tokens.

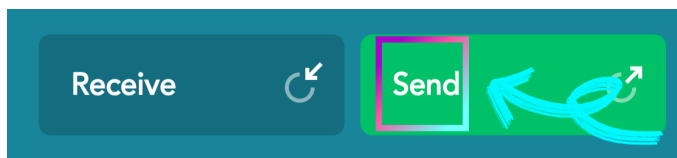

The list is in alphabetic order, XLM will be at the bottom.

You will now see a wallet address and memo pop up. These are yours to input into Lobstr. You will copy and paste these into your Lobstr Wallet.

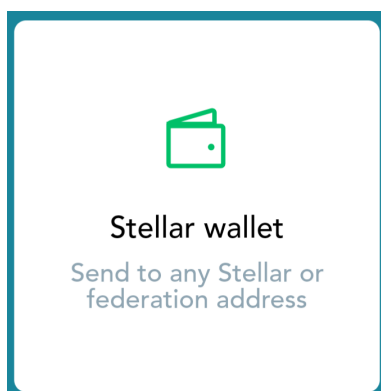

Start here in Lobstr

Next Click here

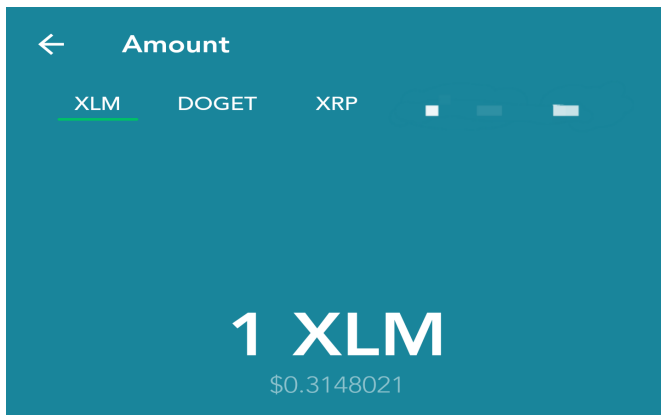

Next Click this square and select your Stellar Wallet

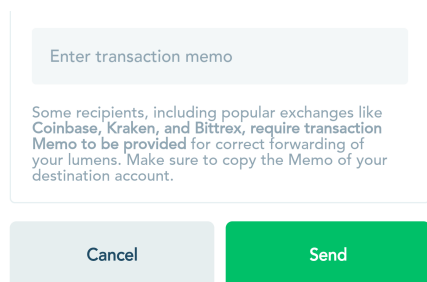

Next past your wallet address from PapayaBot here

Next input the amount you want to send to your PapayaBot Wallet

Next input the memo that was given under your PapayaBot Wallet address

Click send! Done!
